

Statement on MRCS Part A September 2020 Diet

The ICBSE board is aware that whilst most candidates successfully completed the MRCS Part A online exam on Tuesday 15 September, we believe that a small number of candidates encountered technical difficulties, which some were unable to resolve fully. Even though the numbers of candidates affected is small, we take any adverse candidate experience extremely seriously. We are working closely with our online exam provider to detail the technical problems. Once this is defined, please be assured that remedial action, including arranging a further attempt at the examination for affected candidates, will be taken.
